

Auburn University Implements Versatile's SyncSeer™ With GuestAssist

Mechanicsburg, PA May 31, 2011 – Versatile Systems Inc. (Trading symbols on the TSX Venture Exchange: VV and on AIM: VVS), today announced that Auburn University Athletics has implemented an integrated solution made up of Versatile's SyncSeer™ Venue Management Solution and GuestAssist. Integrating the GuestAssist customer feedback solution with SyncSeer™ provides a centralized system to for recording and managing game day incidents.

"Bringing multiple data sources together into a single view provides Auburn staff with an incredibly powerful tool" said Lucas Young, Director of Event Management at Auburn University. "SyncSeer™ and GuestAssist together will help us to provide our fans with the safest possible game day".

SyncSeer™ provides real time visibility, interactivity and responsiveness needed to manage incidents and the necessary reporting for large public facilities, like Auburn University, in a safer and more efficient manner. The system delivers a scalable and flexible approach to handle rapidly occurring incidents, while providing a full historical log of what transpired.

"Our integration with SyncSeer™ has been elegantly implemented." said Jeremy Konko, President of GuestAssist. "The end user's experience and workflow is simplified and enhanced by reducing input and the organization benefits from improved and more accurate data."

"Our partnership with GuestAssist continues to be fruitful." said Bob Joyce, President of Versatile Systems. We believe that there is a large potential customer base in the university sports that would be well served from our integrated solution."

About Versatile

Versatile provides business solutions that enable companies to improve sales, marketing and distribution of their products. Versatile also provides information technology services for the implementation, maintenance and security of mission-critical computer environments.
